Tilt, Yellow Bellies

Make the sink a virgin genuflect and piss in it Worth all the seamy novelties we ripped off at the joke store We could be immortal the way we get away with it We ridicule the mannequins who come here just to look bored

(chorus)

Nicotine molested taste it on our fingertips Black tongue and vodka spit well Nicotine molested taste it on our fingertips Black tongue and vodka spit well Little yellow bellies Little yellow bellies Walking side by side Side by side

Welding up the air hole indicates we'd better go Kicked out of a trailer park unconcious in a shoe store We may be immortal the way we get away with it Proudly stolen cuts of meathermmorrhage on the counter top

We live and live (x7)
