

Tim Blane, Me Being Me

We're not that far along so we'll put on a face
To get the point across, we're stable
Because at the start of something there's different ways
To keep the quirks hidden under the table

So if I ever get strange, my love
Start to mess it up
Please stick around
That's just me being me
And if I ever get strange, my love
Way past the point you're thinking of
Please stick around
That's just me being me

I guess I know the fallout that could take place
If it gets a little real too quickly
So now I'd like to point out what's at stake
If you're thinking that you already get me

So if I ever get strange, my love
Start to mess it up
Please stick around
That's just me being me
And if I ever get strange, my love
Way past the point you're thinking of
Please stick around
That's just me being me

Say the word and I'll let you
Look at my cards and see what you're dealt
I know you would if you could
But I'm thinking you might not be able to live with yourself

So if I ever get strange, my love
Start to mess it up
Please stick around
That's just me being me
And if I ever get strange, my love
Way past the point you're thinking of
Please stick around
That's just me being me

Yeah, that's just me being me
If I ever get strange, my love
Way past the point you're thinking of
Please stick around
That's just me being me

And if I ever get strange, my love
Start to mess it up
Please stick around
That's just me being me

If I ever get strange, my love
Way past the point you're thinking of
Please stick around
That's just me being me

If I ever get strange, my love
Way past the point you're thinking of
Please stick around
That's just me being me
