

Tim Christensen, No Easy Key

You believe in every thing they say
You believe that if they come their way
It's gonna turn you on
You couldn't be more wrong

You believe in everything they do
You believe that they are telling the truth
And they have got it made
That's such a big mistake

Everything's alright with you
There's one thing you can't do
And I believe that it's what I want
Everything's right on the spot
There's one thing you ain't got
And I believe that it's what I need from you

Everybody wants to sing this song
Everybody wants to hum along
But it's no easy key
It's no easy key

Everybody wanna join the game
Everybody wants a piece of the fame
And take the easy way in
When there's no easy way out
