

Tim Christensen, Time Is The Space Between Us

Still got my pride
But it's all over inside
No one's to blame
I'm just happily lost on memory lane
Seeking shelter from the rain

Well on our way
I heard you say
But words go astray
When I'm happily lost on memory lane
Pick me up when the truth comes clean

Time is a space between us
They can call Mars and Venus
Time is still a space between us
A mystery to all who've seen us

Joined at the heart
But light years apart
I sadly claim
To be happily lost on memory lane
Till a supernova ends the game

Time is a space between us
They can call Mars and Venus
Time is still a space between us
A mystery to all who've seen us
