

# Tim Curry, Hide This Face

I'm a smash at cocktail parties  
I keep falling on my face  
I can't decide which side my heart is  
I'm such a damn disgrace  
Can't take me anyplace  
Can't take me anyplace  
Can't take me anyplace  
Hide this face  
Hide your face  
Hide this face  
Hide this face

I reinvent behaving badly  
I'm extremely commonplace  
Although you know I love me madly  
I disturb the populace  
Can't take me anyplace  
Can't take me anyplace  
Can't take me anyplace  
Hide this face  
Hide your face  
Hide this face  
Hide this face

I'm the subject of controversy  
It's my delicious carapace  
But idle gossip never bothered me  
I'm the very worst of taste  
Can't take me anyplace  
Can't take me anyplace  
Can't take me anyplace  
Can't take me anyplace
