

# Tim Finn, Fraction Too Much Friction

There's a fraction too much friction.  
There's a fraction too much friction.  
There's a fraction too much friction.  
There's a fraction too much friction.

Take a typical man put him,  
With a typical woman then,  
Sit back and watch everthing slide.  
It's a perfectly natural  
Expression of Ill will but,  
When will Hostilities subside?

There's a fraction too much friction.  
There's a fraction too much friction.  
Don't believe in opposing factions,  
What we need is some positive action,  
There's a fraction too much friction.

It's a very old problem that,  
Goes back to the dark ages,  
The wages of original sin.  
Lets make it a better world,  
Let's shake it up boys and girls,  
It's never too late to begin.

There's a fraction too much friction.  
There's a fraction too much friction.  
Men and woman need each other,  
Should be like sister and brother,  
There's a fraction too much friction.

Looking for the man who will love his woman,  
Looking for the woman who will love her man.

I swallowed my pride for you,  
My personal high's bore you,  
You're too wrapped up in your own world.  
I'm not a man for nothing,  
I gotta become someone,  
Inside this oyster there's a pearl.

There's a fraction too much friction.  
There's a fraction too much friction.  
Holding on to the bygone era,  
Everybody shout cos we're getting nearer,  
There's a fraction too much friction.

What we need is some positive action,  
What we need is some positive thought.
