you could take the world just give me You! you could take the world just give me You! You could take

The world is not enough for me, the world is not enough for me, the world is not enough for me, the

you could take the world just give me You! you could take the world just give me You! you could take

The world is not enough for me, the world is not enough for me, the world is not enough for me, the

you could take the world just give me You! you could take the world just give me You! you could take

All I want is you, all I need is you, yeah, All I want is you, all I need is you!

you could take the world just give me You! you could take the world just give me You!

All I want is you, Jesus I love you,

all I have is you, all I want is you
