

# Tim McGraw, Maybe We Should Sleep On It

I got an empty feeling when that moving van pulled up  
It got a whole lot emptier as I watched them fill that truck  
And when they carried out your clothes it took my breath away  
Now they're headed for that bed, the thought keeps runnin through my head...  
chorus

Baby, maybe we should just sleep on it tonight  
And give our hearts just one more chance to change our minds  
I could be wrong, but good-bye just don't feel right  
So, baby, maybe we should just sleep on it tonight  
I'll pay them boys to stop right now and leave that truck out on the curb  
The T.V. and the phone's packed up, so we won't be disturbed  
There's not a light left in this room, just a shadow of a doubt  
So let's make sure we don't give-up before we've thought this through enough
