

# Tim McGraw, Set This Circus Down

sometimes this road it just keeps windin'  
'Round and round and back again  
But you've always kept me smilin'  
Over every hill, round every bend

Baby you're the one smilin' with me  
When the sun comes up  
I got the wheel,  
You got the map and that's enough

chorus:  
And we go rollin' down this highway  
Chasin' all our crazy dreams  
I've gone your way and you've gone my way  
And everywhere in between  
One of these days we'll find a piece of ground  
Just outside some sleepy little town  
And set this circus down

Sometimes i lie awake just thinking  
Of all the horizons we have seen  
And as another day is sinking  
I thank God you're here with me

Cause baby you're the one laughing with me  
When the sun goes down  
Livin' on faith and holding on tight  
To the love we've found

chorus  
And we go rollin' down this highway  
Chasin' all our crazy dreams  
I've gone your way and you've gone my way  
And everywhere in between  
One of these days we'll find a piece of ground  
Just outside some sleepy little town  
And set this circus down

And set this circus down  
baby, one of these days  
gonna set this circus down  
set this circus down  
baby, one of these days
