

Tim McGraw, Set This Circus Down

Sometimes this road, it just keeps winding
Round and round and back again
But you've always kept me smiling
Over every hill, round every bend
Baby you're the one smiling with me when the sun comes up
I got the wheel, you got the map and that's enough

And we go rolling down this highway
Chasing all our crazy dreams
I've gone your way and you've gone my way
And everywhere in between
One of these days we'll find a piece of ground
Just outside of some sleepy little town
And set this circus down

Sometimes I lie awake just thinking
Of all the horizons we have seen
And as another day is sinking
I thank God you're here with me
'Cause baby you're the one laughing with me when the sun goes down
Living on faith and holding on tight to the love we found

And we go rolling down this highway
Chasing all our crazy dreams
I've gone your way and you've gone my way
And everywhere in between
One of these days we'll find a piece of ground
Just outside of some sleepy little town
And set this circus down

And set this circus down

Maybe one of these days, gonna set this circus down
Set this circus down
