

Tim McGraw, Unbroken

If I lived and breathed before you loved me, I don't recall
If I walked around at all
It was in bits and pieces of a jagged heart
You kissed me and every piece went back in place
Every pain got erased
You held me up to the sunlight
Now it feels like,

CHORUS:

No one ever left me out in the rain
Cold words still remain unspoken
I never got lost,
Spent years in the dark
You're here now my heart's unbroken
When I see you smile,
Feel my soul again
And I'm unbroken

If I doubted the power of love,
Baby, now I understand
I thank God for every day i wake up
To the soft touch of your magic hands
In this world sometimes the only thing that's real
Is the way you make me feel
Babe, the change is day and night
I swear it's life

CHORUS

I still see the night I fell into your eyes
And when we made love, it felt like the first time.

CHORUS
