

Tim O'Brien, Out In The Darkness

Out in the darkness, out in the night
I see you standing there
I want to guide you into the light
Show you I really care

It's hard to show the way I feel
On this side of the line
How can I show you my love is real
It you can't see the sign

Chorus

A little bit harder, we're gonna have to try
A little bit farther, keep walking side by side
A little bit stronger, we're gonna have to be
A little bit longer, together we hold the key

Why do you hold back when I phone
You never come around
And when I'm with you I feel so alone
You never make a sound

Repeat chorus and first verse
