

Tim Rushlow, Everything To You

(Joel Feeney/Robert Orrall)

Do you read the morning paper
What's your favorite TV show
Do you like your coffee strong
And where do you go to be alone

Do you like the sound of thunder
Would you dance out in the rain
Which one would you rather go to
The ballet or the baseball game
We're just starting out girl, here we go
Let's get a little closer

I wanna know every little thing about you
Wanna read the story of your life
Tell me where you see yourself tomorrow
And what you dreamed about last night
Tell me what fills your heart with sadness
The kind of stuff that makes you laugh out loud
I wanna hear the tiniest of details
So don't leave a single one out
I wanna hear everything so I'll know what to do
To be everything to you

Do you need a four star restaurant
would a drive-thru suit you fine
Have you got your whole life planned
Or do you take things one day at a time
We hardly know each other, you and me
Baby I'm all ears

I wanna know every little thing about you
Wanna read the story of your life
Tell me where you see yourself tomorrow
And what you dreamed about last night
Tell me what fills your heart with sadness
The kind of stuff that makes you laugh out loud
I wanna hear the tiniest of details
So don't leave a single one out
I wanna hear everything so I'll know what to do
To be everything to you

We're just starting out girl, here we go
Let's get a little closer

I wanna know everything about you
Wanna read the story of your life
Tell me where you see yourself tomorrow
And what you dreamed about last night
I wanna hear everything, so I'll know what to do
To be everything to you
I wanna be everything to you
I'm gonna be everything to you
