

Time Bomb, In My Head

Our Culture (is) on the fringes of society
We've refused their imposed rules!
We know that underground is our destiny

Then Punk Rock 'll make the world go round
We'll wake up them brutally
And live our journey to the end

We don't want to feel feverish
We know we stay humans

Here in my heart!
Right in my head!
Ready to start!
Punk Rock in my veins!

Our music is our strengt

Being rejected is our pride
Look we're alive and we stand!

Fashion addiction is a crime
We won't melt away into the crowd
Resignation 's a f**king dead end

We've found a better way underground
Fight and remove ignorance

Here in my heart !
Right in my head !
Ready to start !
Punk Rock in my veins!
