

Timedivers, Face East

1/ You said, I drive you crazy, but I'll always be crazier
You said, I was too lazy, but now I'm lazier

These days, with your secret ways
You come from least, to be the best
Oozing praise as you play the rays
To face East, you've gotta stand West

2/ You said, there's money to be saved, but I'm no saviour
You said this is the final wave, but still my hair grows wavier

repeat chorus

Face East open up your eyes
(1) Make peace can you compromise
(2) Released let your spirits rise
World without end
Face East be my friend

3/ With you, a stolen kiss could cost a true king's ransom
With you, just holding hands was like embracing Islam

repeat chorus, middle 8, verse 1, chorus
