Timesbold, Bone Song

if you can catch a star throw it in the stream and ride it to the end when you reach the end throw it in a hole and jump into the stream there you'll find a girl put her in your hair and crawl into the hole there you'll find a bone put it in her hair and leave her there alone and while she is alone if she can find a star and throw it in the stream and ride it to the end you'll be waiting there to take the bone from her hair and throw it in the stream and ride it to the end again and again
