

Timothy B. Schmit, Was It Just The Moonlight

(t. b. schmit/b. gaitsch/w. jennings)

Was it just the moonlight
The way you held me
Baby what a feeling oh
It was shining so bright
It seemed like magic
Couldn't sleep at all last night

Oh in the light of day
Will it go away
Can we make love stay

Was it just the moonlight
Imagination
Do you think it will remain baby
I just know it feels right
Beautiful sensation
Take it inside
Hope our wild hearts never change

Memories of moonlight
They keep me going
Loving in the shadows oh

Tell your heart to hold tight
And never let go
Making love with all your might

Stars burning in the skies
Suddenly they're there
Burning in your eyes

Was it just the moonlight
Imagination
Do you think it will remain baby
I just know it feels right
Beautiful sensation
Take it inside
Hope our wild hearts never change

Why can't the night go on forever
With all we feel together
Making a wish on stars all shining
Silver lining
Takes my breath away

Was it just the moonlight
