Tina Arena, Love Is The Answer

Imagine you, imagine me We could be happy, we could be free If we could only try No more hunger, no more greed Do you ever wonder, can you believe? This world's for us to share 'Cause I hope and I pray Open our hearts and show us the way

I know love is the answer And fear serves only to bind Keep us all together We all belong in heaven above

No more deception, no more war And peace we would treasure for evermore No need to be alone 'Cause I hope and I pray Open our hearts and show us the way

I know love is the answer And fear serves only to bind Keep us all together We all belong in heaven above
