

Tina Arena, Love Saves

I've got a lot of time for you
All the little thing I need you do
Love saves
Love saves
You're glue in my broken kitchen plate
Medicine when I say that my heart aches
Love saves
Loves saves
Love saves
When we meet in the middle
Love saves
But we get caught in the riddle
Love saves
I give a little knowing I will get it all
You pray
Love saves
Smile, I can hear my laugh again
Cry, when you want to cry and then
Love saves
Love saves
Love saves
When we meet in the middle
Love saves
But we get caught in the riddle
Love saves
I give a little knowing I will get it all
You pray
With a little lost time just to make you mine, why then that's just fine
But before my mind forgets
Signs, a silicone mind, and the number nine led me to the right address
I must confess
Love saves
When we meet in the middle
Love saves
But we get caught in the riddle
Love saves
I give a little knowing I will get it all
You pray
