## Tina Arena, Rumour Has It

Heard a rumour

You've been seen out late at night with a friend

And there's a word that's going round

That soon our love will end

Heard a rumour

I don't believe it

It's all over town

I won't believe it

There's a story I heard

That you've met somebody new

That she's young and beautiful

And means a lot to you

Rumour has it

I don't believe it

It's all over town

I won't believe it

'Cause if you lied to me

After all we had

If you break us apart

I'll be more than mad

I won't believe it

There'll be thunder on the mountain

Darkness on the sea

I've given everything

And you won't take that from me

There's a rumour

I won't believe it

Rumour has it

I can't believe it

There are certain things I've heard

You'll find hard to deny

I'll accept it if you say

It's just a pack of lies

There's a rumour

I don't believe it

The word's been going 'round

I won't believe it

'Cause if you lie to me after all we had

If you break us apart

I'll be more than mad

I won't believe it

[Repeat to fade]
