

Tina Arena, Sorrento Moon (I Remember)

I sang your praises daily
And we let ourselves get swept away
Its true baby, we held heaven in our hands for days
You wait a long time
For something wild to take you somewhere
All I needed was to fly
Its a long way from paradise to ordinary
Picture us just smiling there, we didnt have a care
Chorus:
And I remember, how it all came true
It was oh so tender, and I ws lost with you
By the sweet sorrento moon
But the satrs dont shine that brightly
Every season surely slips away
But you baby, youre the reasonwhy I chose to stay
You wait a long time to find your dream and hold on to it
And all I needed was to fly
Its a long way from innocence to understanding
A picture of a child at play, is how I feel today
Chorus
