## Tina Arena, You Make Me Feel Good

Believe me baby You make me feel good You make me feel good

What everybody tells me I'm gonna ruin the day But I'm just too hung on you baby To stay away

Maybe I'm in love and that shouldn't be Maybe I don't know what's good for me But when you raise your eyes and look that look I wanna rip out all the pages in my love book

All I wanna do is be with you You make me feel good All I wanna see is you with me You make me feel good

Well I can hear a whisper When we go by <&lt; What's a nice girl sweet girl like her Doing with that guy >>

Hey, hey Let them talk all day if they want to That's not gonna change what I feel for you Cause when you pull me close and kiss that kiss I feel like I've been hit by a ton of brick

All I wanna do is be with you You make me feel good All I wanna see is you with me You make me feel good

Baby you can call me on the line I'll come running over anytime

All I wanna do is be with you You make me feel good Feel good Believe me baby You make me feel good You make me feel good You make me feel so good Oh yeah

When you raise your eyes and look that look I wanna rip out all the pages in my love book

All I wanna do is be with you You make me feel good All I wanna see is you with me You make me feel good

Baby you can call me on the line I'll come running over anytime

All I wanna do is be with you You make me feel good All I wanna see is you with me You make me feel good
