

Tina Charles, People Of The Universe

Way up there in the stars that shine so bright
People of the universe are watching day and night
Walking down another road of the almighty
Throw down happiness and peace, tranquility
People of the universe are looking in
To take my hand, make this world begin
To live in peace and harmony, it shall begin again
For people of the universe are looking in
Way out there in universe
Beyond a clear blue sky
Looking down on this crazy world,
They must wanna cry
To see the pain and suffering
The way that people die
When they stop and ask themselves,
Who can tell them why
Repeat
