

Tina Charles, When You Got Love

Yeah, yeah, yeah, listen baby
Weve got a groovy thing goin for us
Aint nothin gonna come between us
You and I will be a sensation
A love like ours dont need no explanation
Loves makes the world go round
And it makes two people one
Without your love, ooh baby
My world would crumble, my world would fall
When Im in trouble, who should I call
When you got love, youve got a good
Thing going
When you got love, youve got a reason for
Growing
Listen honey, I got you, sunshine and laughter
Boy I got you from hereafter
Were gonna be the love of the century
And when you talk, its just like poetry
There will come a time, my friend
When you need a helping hand
So why deny some love and affection
To enter your life
A little affection will work out just right
Repeat
