

# Tina Dickow, Do Something

Close your eyes  
Shield your heart with lies  
Walk away  
When nobody's asking you to stay

Isn't it true?  
It all comes down to you  
Isn't it so?  
No one else can know

In or out  
Hide your smile in doubt  
Win or lose  
You'll know the difference once you choose

Isn't it true?  
It all comes down to you  
Isn't it so?  
No one else can know

Come on! Do something!  
Come on! Do something!

Isn't it true?  
It matters what you do  
Ain't it a shame  
There's no one else to blame  
It's all in your name

Come on! Do something!  
Come on! Do something!
