

# Tina Turner, I Want You Near Me

Should you stay, should you go?  
You're beginning to see  
I grow hot, I blow cold  
It's just the devil in me

You've got to understand, I am  
In love with a beautiful man  
So if you're feeling insecure  
There's really no cause to be

I want you near me  
Don't you turn away  
Just got used to havin you around  
I want you near me, come on, here and stay  
Don't let me down

You're so good with your hands  
To help me with a hook or a zip  
Indispensable, that's what you are  
For the occasional kiss  
I'm only playin games with you  
I can't be nice without being cruel  
I know it's not fair, but I make the rules

I want you near me  
Don't you run away  
Just got used to havin you around  
I want you near me, come on, here and stay  
Don't let me down  
Don't let me down

I want you near me baby

All I want, I've decided  
Is your attention undivided

I want you near me, oh, don't turn away  
I want you near me, oh, wont you stay?  
I want you near me, don't you run away  
I just got used to havin you around  
I want you near me, come on, here and stay  
Don't let me down  
Don't let me down  
I want you near me baby  
Don't you turn away  
I want you near me baby  
Come on, and stay
