

Tina Turner, Love Is A Beautiful Thing

Been so long since I left you
Do all the things you used to do
In all this time I can't forget you
Everywhere I turn I think of you
And I, I wanna trust you baby
You, you're all I need
Soul to soul, Fire to fire
Nothing like this man's desire
Love is a beautiful thing
One and one, you and me
Baby it's our destiny
Love is a beautiful thing
Love is such a sweet emotion
I wanna share it all with you
With your trust and endless devotion
There ain't nothing in this world we can't do
Tonight, I wanna thank you baby
You, you make my life complete
Soul to soul, fire to fire
Nothing like this man's desire
Love is a beautiful thing
One and one, you and me
Maybe it's our destiny
Love is a beautiful thing
Tonight, I wanna thank you baby
You, you make my soul complete
Soul to soul, fire to fire
Nothing like this man's desire
Love is a beautiful thing
One and one, you and me
Maybe it's our destiny
Love is a beautiful thing
