

Tina Turner, Something Special

(Albert Hammond, Graham Lyle)

There's something special about you
When it comes to you there's something special
There's something special about love
I swear to God it comes from heaven up above/

You make me feel like no one else before
You make me wonder how easy it is to love
You make me wonder how easy it is to love

There's something special about a kiss
It makes me want no other lover
'cause you make me feel like this
When you're away I want no other

I never found what I was looking for
I got to wonder if no star would ever shine
I can't explain it, but somehow deep inside
I always knew that when it did I'd recognise you

There's something special about you
When it comes to you there's something special
There's something special about love
I swear to God it comes from heaven up above

Now I know what I've been doing here
Now I know what it's all about
'cause in your arms is where I wanna be
In your arms is where I always wanna be, 'cause

There's something special about you
When it comes to you there's something special
There's something special about love
I swear to God it comes from heaven up above

There's something special about you
There's something special about a kiss
There's something special about love
I swear to God it comes from heaven up above

There's something special about you
There's something special about a kiss
'cause you make me feel like this

Something special
Something special
Special
