

# TINI, Great Escape

Easy come, easy go for a minute  
I can't keep my hands off you  
You're a million \$ bill don't forget it  
I wanna spend my time on you

And I am wondering for morning to night  
Second malaria, I'm losing my mind  
Do you feel it?  
Do you feel it?  
Feel so real, real, real

You're my great escape  
Feel so good to give away  
And with every breath I take  
I can't help myself,  
I can't help myself  
You're my great escape  
I won't let you get away  
And with every breath I take  
I can't help myself,  
I can't help myself

Wanna wave, wanna stay for a vision  
Falling for the sweetest Sun  
I wanna taste everything when we're kissing  
I love it when we're skin to skin

And I am wondering for morning to night  
Second malaria, I'm losing my mind  
Do you feel it?  
Do you feel it?  
Feel so real, real, real

You're my great escape  
Feel so good to give away  
And with every breath I take  
I can't help myself,  
I can't help myself  
You're my great escape  
I won't let you get away  
And with every breath I take  
I can't help myself,  
I can't help myself

I keep running /3x

You're my great escape  
Feel so good to give away  
And with every breath I take  
I can't help myself,  
I can't help myself  
You're my great escape  
I won't let you get away  
And with every breath I take  
I can't help myself,  
I can't help myself
