Keep it a hundred in the fast lane, so high  
Like Amber Rose without the foreplay, four fives  
We gettin' money, baby, no shame, hold tight  
You take a selfie, girl, you're so vein, don't lie  
You know I love it, baby, no way, your my  
You know I like the way you rotate, close thighs  
CopaCabana ring, Dolce, all lies  
It's not my lady, but it's ok., I know why  
You're super wavy, baby  
Baby, you're my cup of tea  
And I really wanna be in your company  
Any good thing coming and going, come to me  
When I pop, pop in your dungarees  
And again, 20 - you know, undefeated  
The batty so big, my squad don't believe it  
And haters gonna diss like Drizzy, like Chris like  
Trippin', this is it life, now I'm singin' this like

We grew up learning things the hard way, close ties  
You only make it if you grow free, don't die  
Remember starting up my own wave, won't lie  
I used to bus it, baby, no train, no sky  
Now when you bustle baby throw shade on those guys  
You know I liked you back in 0-8-0-9  
You used to call me on my house phone, late night  
My mum complaining' but it's ok., it's your time  
Protectfully, my baby  
Baby, you're my cup of tea  
And I really wanna be in your company  
Cause the whole industry is trying come for me  
Dirty pictures on the [?], save some for me  
Hotter than 81 degrees  
Yeah, none of them girls got nothing on your stylez  
Yeah and haters gettin' dissed like smiley with a kiss like  
Scrollin' through your pics like, got me singin' this like
