

# TLC, If They Knew

Chorus:

I don't know what  
She would do if she knew  
That you were comin'  
To do what we do  
I don't know what  
He would do if he knew  
That you were comin'  
To do what we do

Always wondered if she knew about us  
When I met ya you said ya'll had broke up  
Right on time cuz I didn't have my love  
Me and him was also messed up  
That let me fall to you  
And from what I could tell you fell too  
And I wonder if it would be wrong  
If we just kept it on  
And I know we  
Both had someone that we just kept from  
And they still think that they're the only ones  
I like the way we hang but it ain't belong  
We know the feelings they don't know

Chorus

Always thought that he knew about you  
When I met you I said we were through  
In time my feelings came right back  
But I didn't let us get off track  
And I got so into you  
Went too fast what do I do  
When I know I shoulda helped it out  
But you just turn me on

And I know we  
Both had someone that we just kept from  
And they still think that they're the only ones  
I like the way we hang but it ain't belong  
We know the feelings they don't know

Chorus

We kept things pretty tight thus far  
Love without the sex  
And hundred thousand dollar cars  
Ain't it funny how ora should unify  
An entity upon itself  
That can spread wings and fly  
A peaceful coexistence that will surely last  
Becomes a reminiscent dream  
For those in our past  
If they knew just a fraction of all the things we do  
They still wouldn't comprehend  
The depth between me and you  
And I know we  
Both had someone that we just kept from  
And they still think that they're the only ones  
I like the way we hang but it ain't belong  
We know the feelings they don't know

Chorus

I don't know what  
She would do if she knew  
Da da da da da da da da

I don't know what  
He would do if he knew  
I don't know don't know  
Don't know  
TLC  
Yeah baby I  
Left Eye  
T-Boz  
Chilli  
Dallas  
I don't know don't know  
Don't know  
What's up  
What's up  
I...
