

# To/Die/For, Chains

When I close my eyes  
I see you appear  
I'm drawn to you my dear  
I dream of you  
No chains can bind me

In my dreams I'm longing for your sin  
The warmth of your caress

Like a siren's call  
You whisper's all I hear  
I'm captured in your silence  
Our forbidden love  
A secret held within  
In the dead of the night  
Where we unite for dreamtime sin

In this dream I'll keep you forever mine  
Until the end of time

I was longing for your blessing  
But you were a devil in disguise  
My sweet mistress of despair  
You turned my dreams into lies

I follow you to the darker side of night  
You take my hand and pull me closer  
I realize there's no way I can wake
