

To/Die/For, Farewell

You've been hurt so many times
You always seem to buy their lies.
But that's all gone
Forget your past
Go on and dry those tears
Now come with me
I'll take you someplace safe.

The world is cold and so alone
We've got no place to call our own
But I don't care
Come run with me
And we will find a way
Believe me now
I'll take you someplace safe.

Will you take my hand?
'Cause nothing never ever lasts
I will seal our love
For eternity!
