

# To/Die/For, Farewell

You've been hurt so many times  
You always seem to buy their lies.  
But that's all gone  
Forget your past  
Go on and dry those tears  
Now come with me  
I'll take you someplace safe.

The world is cold and so alone  
We've got no place to call our own  
But I don't care  
Come run with me  
And we will find a way  
Believe me now  
I'll take you someplace safe.

Will you take my hand?  
'Cause nothing never ever lasts  
I will seal our love  
For eternity!
