

To/Die/For, Live In You

I need you like vampire needs blood
Am I in love for real?
My whole soul is aching for you
Should I be happy or should I cry?
I don't know, I've never felt this way before
There's nothing sacred but you

If you bleed, I'll bleed with you
If you die, I will die with you
Is this the feeling called love?
Will you take this death for me,
If it makes us feel that we are alive?
There's nothing sacred but you and I.

As the blood runs in your veins
I wanna be inside of you
I wanna live in you as the pain
You wanna keep inside.

I need you like the devil needs sin
You are my obsession
And I'll never let you go.
