

# Toad The Wet Sprocket, Don't Fade

Lead me well, don't clear my way  
Fascinating how the pallor can stay upon your face  
When you are light like a little boy  
Flying kites and shouting to the world  
You're shouting to the world your joy  
Don't fade, you are staying here with me  
Don't fade, I need to know that someone still believes  
Look around, see for yourself  
He led us down and at the water's edge we knelt  
Petals in the lake and red upon my face  
She's crying as we pray  
And it all comes down to money, again  
How could you forsake the love of God that way  
Don't fade, you're staying here with me  
Don't fade, I need to know that someone still believes
