

Toasters, Dog Eat Dog

What ever happened to the world I know
I don't recognize the scenery
Too many changes I don't understand
I liked it better how it used to be

Lies and money turned a lot of heads
People take themselves too seriously
Rolled right over left the scene for dead
Self-crowned kings but only wannabes

I heard you talking didn't understand a word
Turned your back called it a day
Just for the record in case you hadn't heard
We're not going out that way

Lies and money turned a lot of heads
People take themselves too seriously
Rolled right over left the scene for dead
Self-crowned kings but only wannabes

I heard you talking didn't understand a word
Rolled right over turned away
Just for the record In case you hadn't heard
We're not going out that way

Dog eat dog and the family
Ain't quite the same as it used to be
Everybody grubbing at the money tree
Yeah heay

Dog eat dog and the family
Ain't quite the way that it used to be
What ever happened to the unity

Did you forget about the way we were?
Did you forget about the wonder years?
All trod down, thrown down without a care
All those promises made over beers

I heard you talking didn't understand a word
Turned your back called it a day
Just for the record in case you hadn't heard
We're not going out that way

Dog eat dog and the family
Ain't quite the same as it used to be
Everybody grubbing at the money tree
Yeah heay

My name is Graham
I'm eight years old
Today is my birthday
