

# Toby Keith, A Little Less Talk And A Lot More Act

I was getting kinda tired of her endless chatter  
Nothing I could say ever seemed to matter  
So I took a little drive just to clear my head  
I saw a flashing neon up ahead  
It looked like a place to find some satisfaction  
With a little less talk and a lot more action

I paid the man at the door and pushed my way to the bar  
Shouted for a drink over a screaming guitar  
A drunk on a stool tried to mess with my head  
But I didn't even listen to a word he said  
I knew somewhere amid all this distraction  
Was a little less talk and a lot more action

A little less talk if you please  
A lot more loving is what I need  
Let's get on down to the main attraction  
With a little less talk and a lot more action

Well she was fighting them off at a corner table  
She had a longneck bottle she was peeling the label  
The look on her face it was perfectly clear  
She said somebody please get me out of here  
The look she shot me through the glass refraction  
Said a little less talk and a lot more action

A little less talk if you please  
A lot more loving is what I need  
Let's get on down to the main attraction  
With a little less talk and a lot more action

A little less talk  
A lot more loving  
Let's get on down to the main attraction  
With a little less talk and a lot more action  
Get on down to the main attraction  
With a little less talk and a lot more action
