

# Toby Keith, Santa I'm Right Here

I was downtown Christmas shopping  
Such a busy city street  
I don't know how I noticed the piece of paper at my feet  
But somethin' made me pick it up, instead of goin' on my way  
I stopped and froze right in my tracks  
As I read what it had to say  
Oh Santa, if you can't find me  
We're livin' out here on the street  
But I'll be watchin' for you, you're not gonna forget me, are you  
Daddy says he knows you'll try  
But we might be too hard to find this year  
Oh Santa, I'm right here  
It said, we don't have our house no more, I wish we could go home  
Mama says we will some day and she prays it won't be long  
But they closed daddy's factory and took most of our things  
Now Santa, I don't need to much, so this year could you bring  
Bring my mom a coat that's warm, 'cause the one she's got is awful torn  
Maybe dad could help you work, makin' toys for boys and girls  
Oh Santa, if you can't find me  
We're livin' out here on the street  
But I'll be watchin' for you, you're not gonna forget me, are you  
Daddy says he knows you'll try  
But we might be too hard to find this year  
Oh Santa, I'm right here  
I'm right here  
I'm right here
