

# Toby Keith, She Left Me

Her bags are packed and waitin' for someone to come and pick'em up outside  
ah yeah i dont know  
where they come from, man, i aint seen that much luggage in my life  
she was always bad about leavin'  
especially every time i done her wrong  
this time she mihgt be through believin' me  
yeah, this time  
she might be good as gone, gone, gone

[chorus]  
we'd still be together, but she left me  
id got mad about it, but it never did upset me  
she'll  
remember me until the day she forgets me  
wed still be together, but she left me

she took everything i had execpt some change that she left in the ashtray  
i guess i got that going  
for me if i plan on looking at it that way  
she loaded up my boat and my motor  
she took off with my  
guitar and my guns  
i heard she ran away with my best friend jake  
and i know im gonna miss him when  
its all said and done

[repeat chorus 2X]
