

Toby Keith, Wish I Didn't Know Now (What I Didn't Know Then)

I never asked you where you're going
I never asked you where you've been
I've never called and checked your story
When you stayed out with all your friends

I've never tried to catch you lyin'
I didn't want to know the truth
I'd rather go on lovin' blind girl
Than go on lovin' without you

Chorus:

I wish I didn't know now what I didn't know then
I wish I could start this whole thing over again
I'm not sayin' that you could ever be true
I just don't want to know how it ends
You'd still have my heart in the palm of your hand

I'd still look like a fool in front of your friends
Yeah I wish somehow I didn't know now
What I didn't know then

I've always said what I don't know
Couldn't hurt as bad as leavin' you
Turns out I knew what I was thinkin'
It ain't an easy thing to do

Well I guess I should be goin'
I sure found out too much to stay
Please don't say you're sorry
I might wait another day
