

Toby Keith, You Already Love Me

Yeah me and bobby p stayed out all night
Kickin it and cutting up and getting right
I had a good time
Till I cam crawlin in bout daylight
And you were bawlin
And remember that time I took your car
You told me not to drive it but my truck wouldn't start
I had to leave it parked it got a whiskey dent
Down at the handlebar where I swore I never went darlin

[Chorus]

You get mad sometimes
I drive you right out of your mind
I don't mean to make you crazy
I'm not the devil just a dude
Baby girl I know that you
Could do better than me maybe
But its too later, you already love me
Yeah its too late, you already love me
Starch my shirt and press my pants
Mett your boss at tyour christmas dance
In a suit and tie
I wore my boots and jeans
And when he rolled his eyeys
Girl I caused a scene baby
[Repeat Chorus]
