

# Today Is The Day, Sadness Will Prevail

I tore it down, to lift it up off the ground  
It makes me, it brings me down  
And all I am, on the ground  
At night I wrap myself in pain  
And I'll never see again

My cover, that you have blown  
I wish this path I did not go  
It makes me, it brings me down  
And all I am, on the ground  
At night I wrap myself in pain  
And I'll never see again
