

Todd Agnew, In The Middle Of Me

I need a little more sunshine in the middle of rain
Need a little more joy in the middle of pain
Need a little more color in the middle of this plain jane

I've looked as deep as I can see
And I think I need a little more You in the middle of me

I need a little more patience in the middle of stress
I need a little more beauty in the middle of this mess
Need a little more substance in the middle of this emptiness

I've looked as deep as I can see
And I think I need a little more You in the middle of me

Need more of You and less of me
More of You and little less insanity
More of You and little less complexity

I've looked as deep as I can see
It seems more of You is better for me

I need a little more rhythm in the middle of this lazy rhyme
Need a little more spontaneity in the middle of this daily grind
Need a little more truth not music in this world of lies

I've looked as deep as I can see
And I think I need a little more You in the middle of me
