

# Token, Perfect

We could've been Perfect  
You ruined everything  
We could've been Perfect  
You ruined everything  
And now I'm in the last place I deserve  
Far enough to be alone close enough to get hurt  
We could've been Perfect

We could've been Perfect  
If it wasn't for your two friends  
One in the blue dress  
One in the blue can  
Knew you hung around the wrong people  
Knew you did the wrong things  
But I ain't give a damn  
Nah I ain't give a damn  
Blinded by the smile  
And I had to give it a chance  
I should've ignored you  
But I was sticking by myself  
When you hit me on my cell  
I was tripping and I fell  
Towards you  
And fell for you  
Been on this mission going through hell for you  
In this position I witnessing the differences within our characteristics but your physical description g  
Oh you don't have to be perfect  
Lie by myself I was lying to myself  
Like you worth it  
Pretty ass  
Pretty ass smirk  
And a pretty ass face on an ugly ass person  
Now it outweighs all  
I see it always  
Like catching the game's ball  
But losing the ball game  
I knew it wouldn't work  
But I still wanted your touch  
And when I lost it  
It just hurt so much  
Cause I know

We could've been Perfect  
You ruined everything  
We could've been Perfect  
You ruined everything  
And now I'm in the last place I deserve  
Far enough to be alone close enough to get hurt  
We could've been Perfect

I remember the first date  
We saw a movie in town  
I was so damn nervous  
How stupid that sound  
I usually suck with the conversation  
And staying verbal  
But afterward we talk as long as the movie plus all the commercials  
It was all just really new  
You were so beautiful  
I was so into you  
Soon after we took a break  
I was doing an interview  
When you texted me  
"I been missing you"

Oh I was frozen  
The radio heard me choking  
Do you know how invincible I felt till that very moment?  
I never had a girl I was into be into me  
It was a whole new world I was as happy as a kid could be  
We both had dreams they told us not in our reach  
But I watched you in theatre you stole every single scene  
I knew you acted  
Just didn't know you were acting  
When with me  
A shame you started acting differently

We could've been Perfect  
You ruined everything  
We could've been Perfect  
You ruined everything  
And now I'm in the last place I deserve  
Far enough to be alone close enough to get hurt  
We could've been Perfect

We could've been Perfect  
But you finally showed me who you really were as a person  
At first it was real different  
But I tried to stick it out and deal with it  
Like remember when you had me stop talking to my closest friend who was a female cause you said  
Remember when I buy you your favourite colour of reefer for a holiday that you don't even celebrate  
Remember when you drink and I wouldn't make a move only cause I didn't wanna do something you  
And remember after we split you made lies about what I did when you'd been drinking but to my face  
For the record I still think about you  
How could I forget this  
I heard you cried when you heard the last song  
That wasn't my intention  
I just wrote what I was feeling in that moment  
The harsh reality of dating a poet  
Hold up  
I just want you to know that I don't hate you  
And I'll admit  
When I see you in the hallways I wish we'd talk again  
And I don't want you to cry  
But you should feel regretful  
Just know we had potential

We could've been Perfect  
You ruined everything  
We could've been Perfect  
You ruined everything  
And now I'm in the last place I deserve  
Far enough to be alone close enough to get hurt  
We could've been Perfect

You ain't gotta cry no more  
And you ain't gotta cry no more  
And you ain't gotta cry no more  
And you ain't gotta cry no more  
And you ain't gotta cry no more  
And you ain't gotta cry no more  
And you ain't gotta cry no more
