

# Token, (Shine On) Dark Side Of Fate

You don't know how the story ends  
when your trust has turned to hate  
You wanna know how it all depends  
on the other side of fate...

A sudden loss of reality  
the morning bliss is gone  
Dark black clouds building up the heavens  
the sun won't shine for long

You hear the thunder roar  
and nothing will be the same

Shine On (we're shining on) shine on like the stars in the sky  
Shine On (we're shining on) a hero will never die

A silent prayer for the chosen ones  
who stood on holy ground  
We find our way through borrowed hours  
as the flame is fading out

You see the lightning strikes  
and nothing remains the same

Shine On (we're shining on) shine on like the stars in the sky  
Shine On (we're shining on) a hero will never die

You hear the thunder roar...

Shine On we're shining on like the stars in the sky  
Remember Shine On (we're shining on) a hero will never die

You don't know how the story ends  
your trust has turned to hate  
You wanna know how it all depends  
on the Dark Side Of Fate...
