Tokimonsta x Iza, Pinching

If they could see me now They'll know what's going on It took me by surprise

The fact there you were here It doesn't make it feel I thing you my on skin In fear

Or maybe is out of a deal I'm closing my eyes baby We should ... I co scare Coz lately I don't remember the thrill I'm not supposed to say this You're not supposed to be here

We all imagine what will say Love will not gonna dare Love will not gonna dare One day We should know how to behave I don't know... To say

If they could see me now They'll know what's going on It took me by surprise The fact there you were here It doesn't make it feel I thing you my on skin
