

Tokio Hotel, Raise Your Hands

You say it's all so important
Alright, it's what you're playin' at
I know you are more than perfect
Believe that I believe in that
Move back, then move forward
Okay, there's got to be a way
Stand still, otherwise it's over
Run on but don't you run away

My head is full of nothing
I see my shadows passing by
One thousand diagnoses
Yeah, yeah, okay, who cares?

We are here tonight
Leave the world outside
I see you shining bright
Raise your hands together
Chaos all around
While we're going down
Let's stop fearing now
Raise your hands together
All together

You say you can come with me
Don't doubt, don't you dare
Whatever's gonna happen tomorrow
Was your plan well prepared?

My head is full of nothing
I see my shadows passing by
One thousand diagnoses
Yeah, yeah, okay, who cares?

We are here tonight
Leave the world outside
See you shining bright
Raise your hands together
Chaos all around
While we're going down
Let's stop fearing now
Raise your hands together

We are here tonight
Raise your hands together
Leave the world outside
Raise your hands together
Chaos all around

Let's stop fearing now

All right, I'm fine, never mind

We are here tonight
Leave the world outside
I see you shining bright
Raise your hands together
Chaos all around
While we're going down
Let's stop fearing now
Raise your hands together

We are here tonight
Raise your hands together

Leave the world outside
Raise your hands together
Chaos all around
Raise your hands together
Let's stop fearing now
Raise your hands together
All together
Raise your hands together
