

Tom Eeckhout, Can't Change My Feelings

They say that love is blind
But that can't be true
Cause I love you so
And I see you every day in front of me

I don't wanna be blind
Cause I love you so
I think every minute of you
No one can change my feelings for you (for you)

They say that love is forever
I hope it isn't true
Cause when it is true
I never fall in love again

I don't wanna fall in love with some one else
Cause you're the only one for me
I always gonna be there for you
When you need somebody to talk to (talk to)

She is so pretty
She is so sweet
Her name is sally
She is just everything I dream about

Her eyes are blue
She is beautiful
She's the perfect woman for me
No one can change my feelings for her (for her)
