

Tom Eeckhout, I'm Gonna Miss You

I'm gonna miss you

Strophe1:

I met a special girl
She is perfect for me
She's my best friend
I want her to be always with me
But at the end of the school year
I never gonna see her anymore
And next year she's forgotten me
That's one thing I now for sure

Refrain:

But one thing I now
That is I will never forget you
You are the best thing
That ever came into my world

Strophe2:

She says that we will
See each other sometime
But I'm always gone
And she has not much time
I really gonna miss her
I wanna be around her
I see her everyday
But next year it'll be different

Refrain

Strophe3:

I already miss her
When it's weekend
And I'm almost death
When It's vacation
Oh, next year I'm gonna die
And I don't wanna lie
I wanna see her everyday
And else it'll be over

Refrain(2x)
